

HUES AND CLUES

Hues and Clues

"Hues and Clues: A Multiplayer Memory-Based Board Game"

A board game that intricately blends color theory with perception. With six hues, including primary colors and their blends, it offers engaging game-play for two to six players.

Each move subtly reveals clues, encouraging strategic depth and immersion. The game's mechanics are intuitively designed, considering players of all levels.

"Hues and Clues" transcends traditional board games, offering an immersive journey into color and cognition. It inspires affinity, creativity, and critical thinking, making every turn a captivating exploration of possibility and judgement.
