

Meet The Unsupported iPad

Frustrations

- "I'm still working, but fewer apps support me."
- "I'm treated as outdated just because I can't run the latest software."
- "My owner doesn't know what else I can be used for."
- "I'm slowly being forgotten in a drawer, soon to be trashed"

Goals

- "I want to stay useful for as long as my hardware allows."
- "I want to avoid becoming e-waste."

Needs

- "I need to know what I'm still capable of."
- "I need an easy way to be repurposed or passed on."
