

Needs To Consequences Mapping

Uncertainty about device value and the effort involved in finding responsible alternatives can push users toward easier choices such as storage, selling or disposal.

Uncertainty: Users Don't Know What Their Old Device Is Worth Or What They Should Do With It.

Convenience: Selling Or Throwing Away Can Feel Easier Than Finding A Responsible Alternative.

Lost Value: Functional Devices, Components And Materials Can Become Waste Unnecessarily.

Opportunity: Make The Responsible Choice Simple, Immediate And Rewarding.
